

Toomeys Walk

1 hr 30 mins

Moderate track

3

2.9 km One way

▲ 135m

This walk is a great way to explore the diverse forests of Katandra Reserve. Starting with the views from St Johns Lookout, this walk heads through the open forest, past many mossy rocks, then heads into the valley and rainforest. On the valley floor, the walk gently meanders past some great examples of Strangler Figs on the way to Seymour Pond. From the pond, you walk through another palm-filled valley and then open forest, before arriving at the Katandra Rd Picnic Area.

18m

Katandra Reserve

St Johns Lookout picnic area

St Johns Lookout picnic area is a large open area found at the top of Katandra Reserve on Toomeys Rd. The picnic area provides wheelchair accessible toilets, picnic tables, free electric BBQ's, parking areas and information boards. There is plenty of open space with some natural shade provided by the surrounding trees. There are garbage bins provided but no drinking water.

St Johns Lookout

This fenced lookout is found at the top of Katandra Reserve, near the toilets. The lookout was upgraded by Gosford Council in September 2009 and now provides a safer platform and easier access. From the lookout, there are extensive views south-east over Matcham, Erina Heights and Terrigal, out to the ocean. The Guringai Walk passes below the lookout - please take extra care to not drop anything from the platform.

Strangler Fig platform

The Strangler Fig platform on Toomey Walk has been built to help walkers better appreciate this amazing feat of survival. The tree is formally know as *Ficus obliqua* and is listed on the Significant tree Register. More commonly know as a 'Small-leaved Fig', this tree has an amazing root structure that grasps onto a large mossy boulder before heading underground. The platform is in a lovely shaded spot on the valley floor and the bench seat makes an inviting offer to sit whilst you soak up the surroundings. [More info.](#)

Strangler Fig Tube

This Strangler Fig Tube is found beside Toomey Walk, just north of Seymour Pond. The scientific name of the tree is *Ficus obliqua* and it is listed on the Significant Tree Register. This Small-leaved Fig has grown around a large fallen log. The log has long-since rotted away, leaving a knotted tubular structure. Strangler Figs often grow from seeds dropped by birds. The seeds may fall on logs or rocks and the roots will make their way to the ground (to provided water, nutrients and a firm anchor), whilst the rest of the tree grows upwards for light. [More info.](#)

Before You walk

Bushwalking is fun and a wonderful way to enjoy our natural places. Sometimes things go bad, with a bit of planning you can increase your chance of having an enjoyable and safer walk. Before setting off on your walk check

- 1) Weather Forecast ([BOM Hunter District](#))
- 2) Fire Dangers ([Greater Sydney Region](#))
- 3) Park Alerts ()
- 4) Research the walk to check your party has the skills, fitness and equipment required
- 5) Agree to stay as a group and not leave anyone to walk solo

Think before you TREK

The 'Think before you TREK' program developed by NSW Police & NPWS promotes the benefits of planning ahead for your bushwalking trip by using an easy to remember acronym:

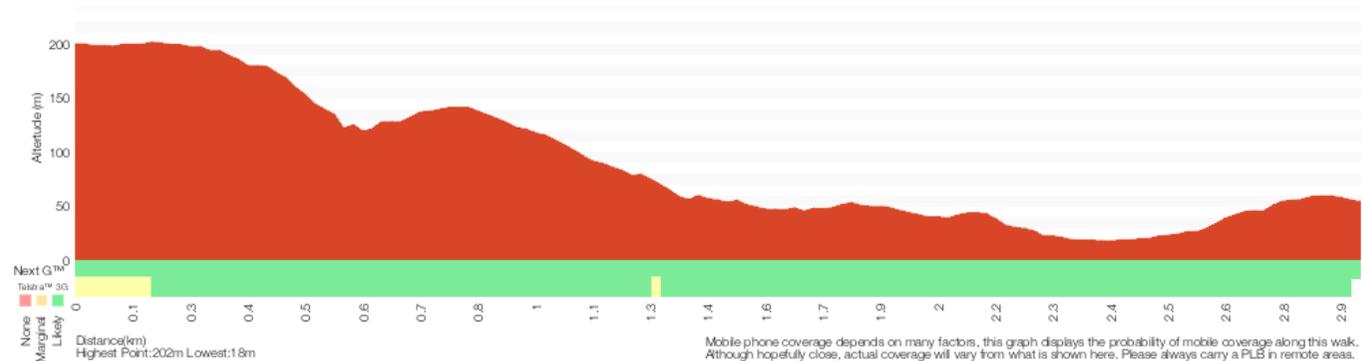

- T** Take adequate supplies of food, water, navigation and first aid equipment.
- R** Register your planned route and tell friends and family when you expect to return.
- E** Emergency beacon (PLB's) should be carried on walks with significant gaps in mobile coverage (check terrain profile).
- K** Keep to your planned route and follow the map and walking trails.

Topo Maps

The maps provided on wildwalks are helpful, but there are times where you may need maps covering a broader area. Maps that cover this walk include;

1:25 000 Map Series:91312S GOSFORD

1:100 000 Map Series:9131 GOSFORD

Grade

This walk has been graded using the AS 2156.1-2001. The overall grade of the walk is determined by the highest classification along the whole track.

Grade 3/6
Moderate track

Length	2.9 km One way
Time	1 hr 30 mins
Quality of track	Clear and well formed track or trail (2/6)
Signs	Clearly signposted (1/6)
Experience Required	Some bushwalking experience recommended (3/6)
Weather	Weather generally has little impact on safety (1/6)
Infrastructure	Limited facilities, not all cliffs are fenced (3/6)

Are you ready to have fun?

Please ensure you and your group are well prepared and equipped for all possible hazards and delays. Check park closures, weather information and Fire Danger Rating before setting out. Optional side trips and alternate routes noted are not included in this walk's overall grade, length or time estimate. Please allow extra time for resting and exploring areas of interest. The authors, staff and owners of wildwalks take care in preparing this information but will not accept responsibility for any inconvenience, loss or injury you may experience. Please take care, have fun - Happy Walking.

Getting there Traveling by car is the only practical way to get to St Johns Lookout car park (gps: -33.4065, 151.3901). Car: There is free parking available.

You can get back from Katandra Rd Gate (gps: -33.415, 151.3965) by car or bus. Car: There is free parking available.

Find up to date and more information including; travel directions, weather, park closures and walker feedback at <http://wild.it/tw>

0 | St Johns Lookout car park

(130 m 2 mins) From the car park (signposted as 'Katandra' on Toomeys Rd), this walk heads across the picnic area and past the BBQ shelters, keeping the road up the hill to the left. Soon the walk comes to a sandstone footpath in front of the toilet block.

0.13 | St Johns Lookout picnic area

St Johns Lookout picnic area is a large open area found at the top of Katandra Reserve on Toomeys Rd. The picnic area provides wheelchair accessible toilets, picnic tables, free electric BBQ's, parking areas and information boards. There is plenty of open space with some natural shade provided by the surrounding trees. There are garbage bins provided but no drinking water.

0.13 | Optional sidetrip to St Johns Lookout

(40 m 1 mins) Turn right: From the toilet block, this walk follows the footpath past the information sign to the fenced and signposted 'St Johns Lookout' At the end of this side trip, retrace your steps back to the main walk then Veer right.

0.13 | St Johns Lookout

This fenced lookout is found at the top of Katandra Reserve, near the toilets. The lookout was upgraded by Gosford Council in September 2009 and now provides a safer platform and easier access. From the lookout, there are extensive views south-east over Matcham, Erina Heights and Terrigal, out to the ocean. The Guringai Walk passes below the lookout - please take extra care to not drop anything from the platform.

0.13 | Toilet block

(170 m 3 mins) Continue straight: From the toilet block, this walk heads through the clearing away from the lookout and BBQs. The walk follows the 'Toomey Walk' sign past a couple of picnic tables then turns right at the next 'Toomey Walk' sign. Just after passing through the gap in the fence, the walk comes to an intersection with a number of timber posts (on the right).

0.3 | Upper Int of Toomey walk and Katandra Horse track

(70 m 2 mins) Turn right: From the intersection, this walk follows the upper orange arrow past the timber posts and along the track. The track soon bends sharply left, heading down some stairs and coming to a three-way intersection, and a 'Lookout' sign pointing back up.

0.36 | Int of Toomey and Guringai Walks

(330 m 11 mins) Continue straight: From the intersection, this walk follows the 'Toomey Walk' sign down the steps and left around the tree and through a

cleft in the rock. The track zigzags down the hill and, about 100m past a rock platform with views, the track leads through some timber posts to come to a 'T' intersection with the Katandra Horse Track.

0.69 | Lower Int of Toomey walk and Katandra Horse track

(130 m 4 mins) Veer right: From the intersection, this walk follows neither arrow but heads gently downhill along the wide horse trail, passing the post with the peach-coloured strip. The trail winds through the bush for a short time before coming to a clearing and signposted intersection with the 'Ridgeway Road' trail.

0.82 | End of Ridgeway Rd trail

(1 km 25 mins) Veer right: From the intersection, this walk follows the left-hand arrow on the 'Toomey Walk' sign, over a small rise and along a narrow track. The track then heads down a short set of stairs and past a large rock. After a switchback, the track heads down another set of stairs then continues more gently down the hill. After a few more zigzags, the bush becomes more dense and thick vines become prevalent. Once on the valley floor, the walk crosses a couple of small creeks on small timber bridges and soon heads down some stairs, coming to the timber platform and a large Strangler Fig tree.

1.86 | Strangler Fig platform

The Strangler Fig platform on Toomey Walk has been built to help walkers better appreciate this amazing feat of survival. The tree is formally know as *Ficus obliqua* and is listed on the Significant tree Register. More commonly know as a 'Small-leaved Fig', this tree has an amazing root structure that grasps onto a large mossy boulder before heading underground. The platform is in a lovely shaded spot on the valley floor and the bench seat makes an inviting offer to sit whilst you soak up the surroundings. [More info.](#)

1.86 | Strangler Fig platform

(420 m 9 mins) Turn left: From the Strangler Fig Tree platform, this walk heads down a step and follows the flat track through the palm-filled valley. The track cross a few small creeks on small timber bridges to come to post '3' (a large Turpentine Tree). From there, the track continues gently downhill. Soon after heading down a long set of timber stairs, the track crosses a small bridge then turns right, coming to the top of more stairs and a number '4' post (a Strangler Fig tube).

2.28 | Strangler Fig Tube

This Strangler Fig Tube is found beside Toomey Walk, just north of Seymour Pond. The scientific name of the tree is *Ficus obliqua* and it is listed on the Significant Tree Register. This Small-leaved Fig has grown around a large fallen log. The log has long-since rotted away, leaving a knotted tubular structure. Strangler Figs often grow from seeds dropped by birds. The seeds may fall on logs or rocks and the roots will make their way to the ground (to provided water, nutrients and a firm anchor), whilst the rest of the tree grows upwards for light. [More info.](#)

2.28 | Strangler Fig Tube

(60 m 1 mins) Continue straight: From post '3', this walk heads down the timber stairs and turns left. The walk follows the track and soon moves back onto a boardwalk, coming to a three-way intersection beside a large pond, with a sign pointing back along 'Toomey Walk'.

2.34 | Int of Waterman and Toomey walks

(70 m 1 mins) Continue straight: From the intersection, this walk follows none of the arrows and heads away from the face of the signs, across the bridge, keeping the pond on the right. The track then heads past the picnic tables and comes to an intersection and 'Seymour Pond' sign.

2.4 | Seymour Pond

Seymour Pond is medium-sized water body in Katandra Reserve. The pond is fed by a spring coming from the cliffs at the top of the reserve. The small creek was dammed in the early 1900's to provide water for a farm on the south side (growing vegetables). The pond is home to water birds, large lizards and other wildlife. The council does not allow swimming in the pond, helping to maintain the ecosystem that now relies on this pond. There are a few spots beside the pond where you can enjoy the cool climate and the visiting birds.

2.4 | Seymour Pond Picnic Area

The Seymour Pond Picnic Area is found on the dam wall at the eastern end of Seymour Pond in Katandra Reserve. The picnic area provides a couple of picnic tables and a garbage bin. The picnic area is set in a lovely naturally shaded area in view of the Seymour Pond and beside Watermans and Toomeys walks.

2.4 | Seymour Pond Picnic area

(300 m 8 mins) Veer left: From the picnic area, this walk heads away from the pond, following the left-hand 'Waterman walk' arrow (next to the locked gate) into the bush and across a couple of small bridges. The track passes post '5' (an old wombat hole) then sharply bends right, soon passing the 'Commemorating 10 years of bushcaring in Katandra Reserve' plaque, where this walk then heads down some stairs. After walking through the palm filled valley for a short distance, the walk heads up the steps and, soon after passing the house and fence (on the left), comes to a three-way intersection marked with a post (with blue and white arrows).

2.71 | Int of Waterman walk and Katandra Rd track

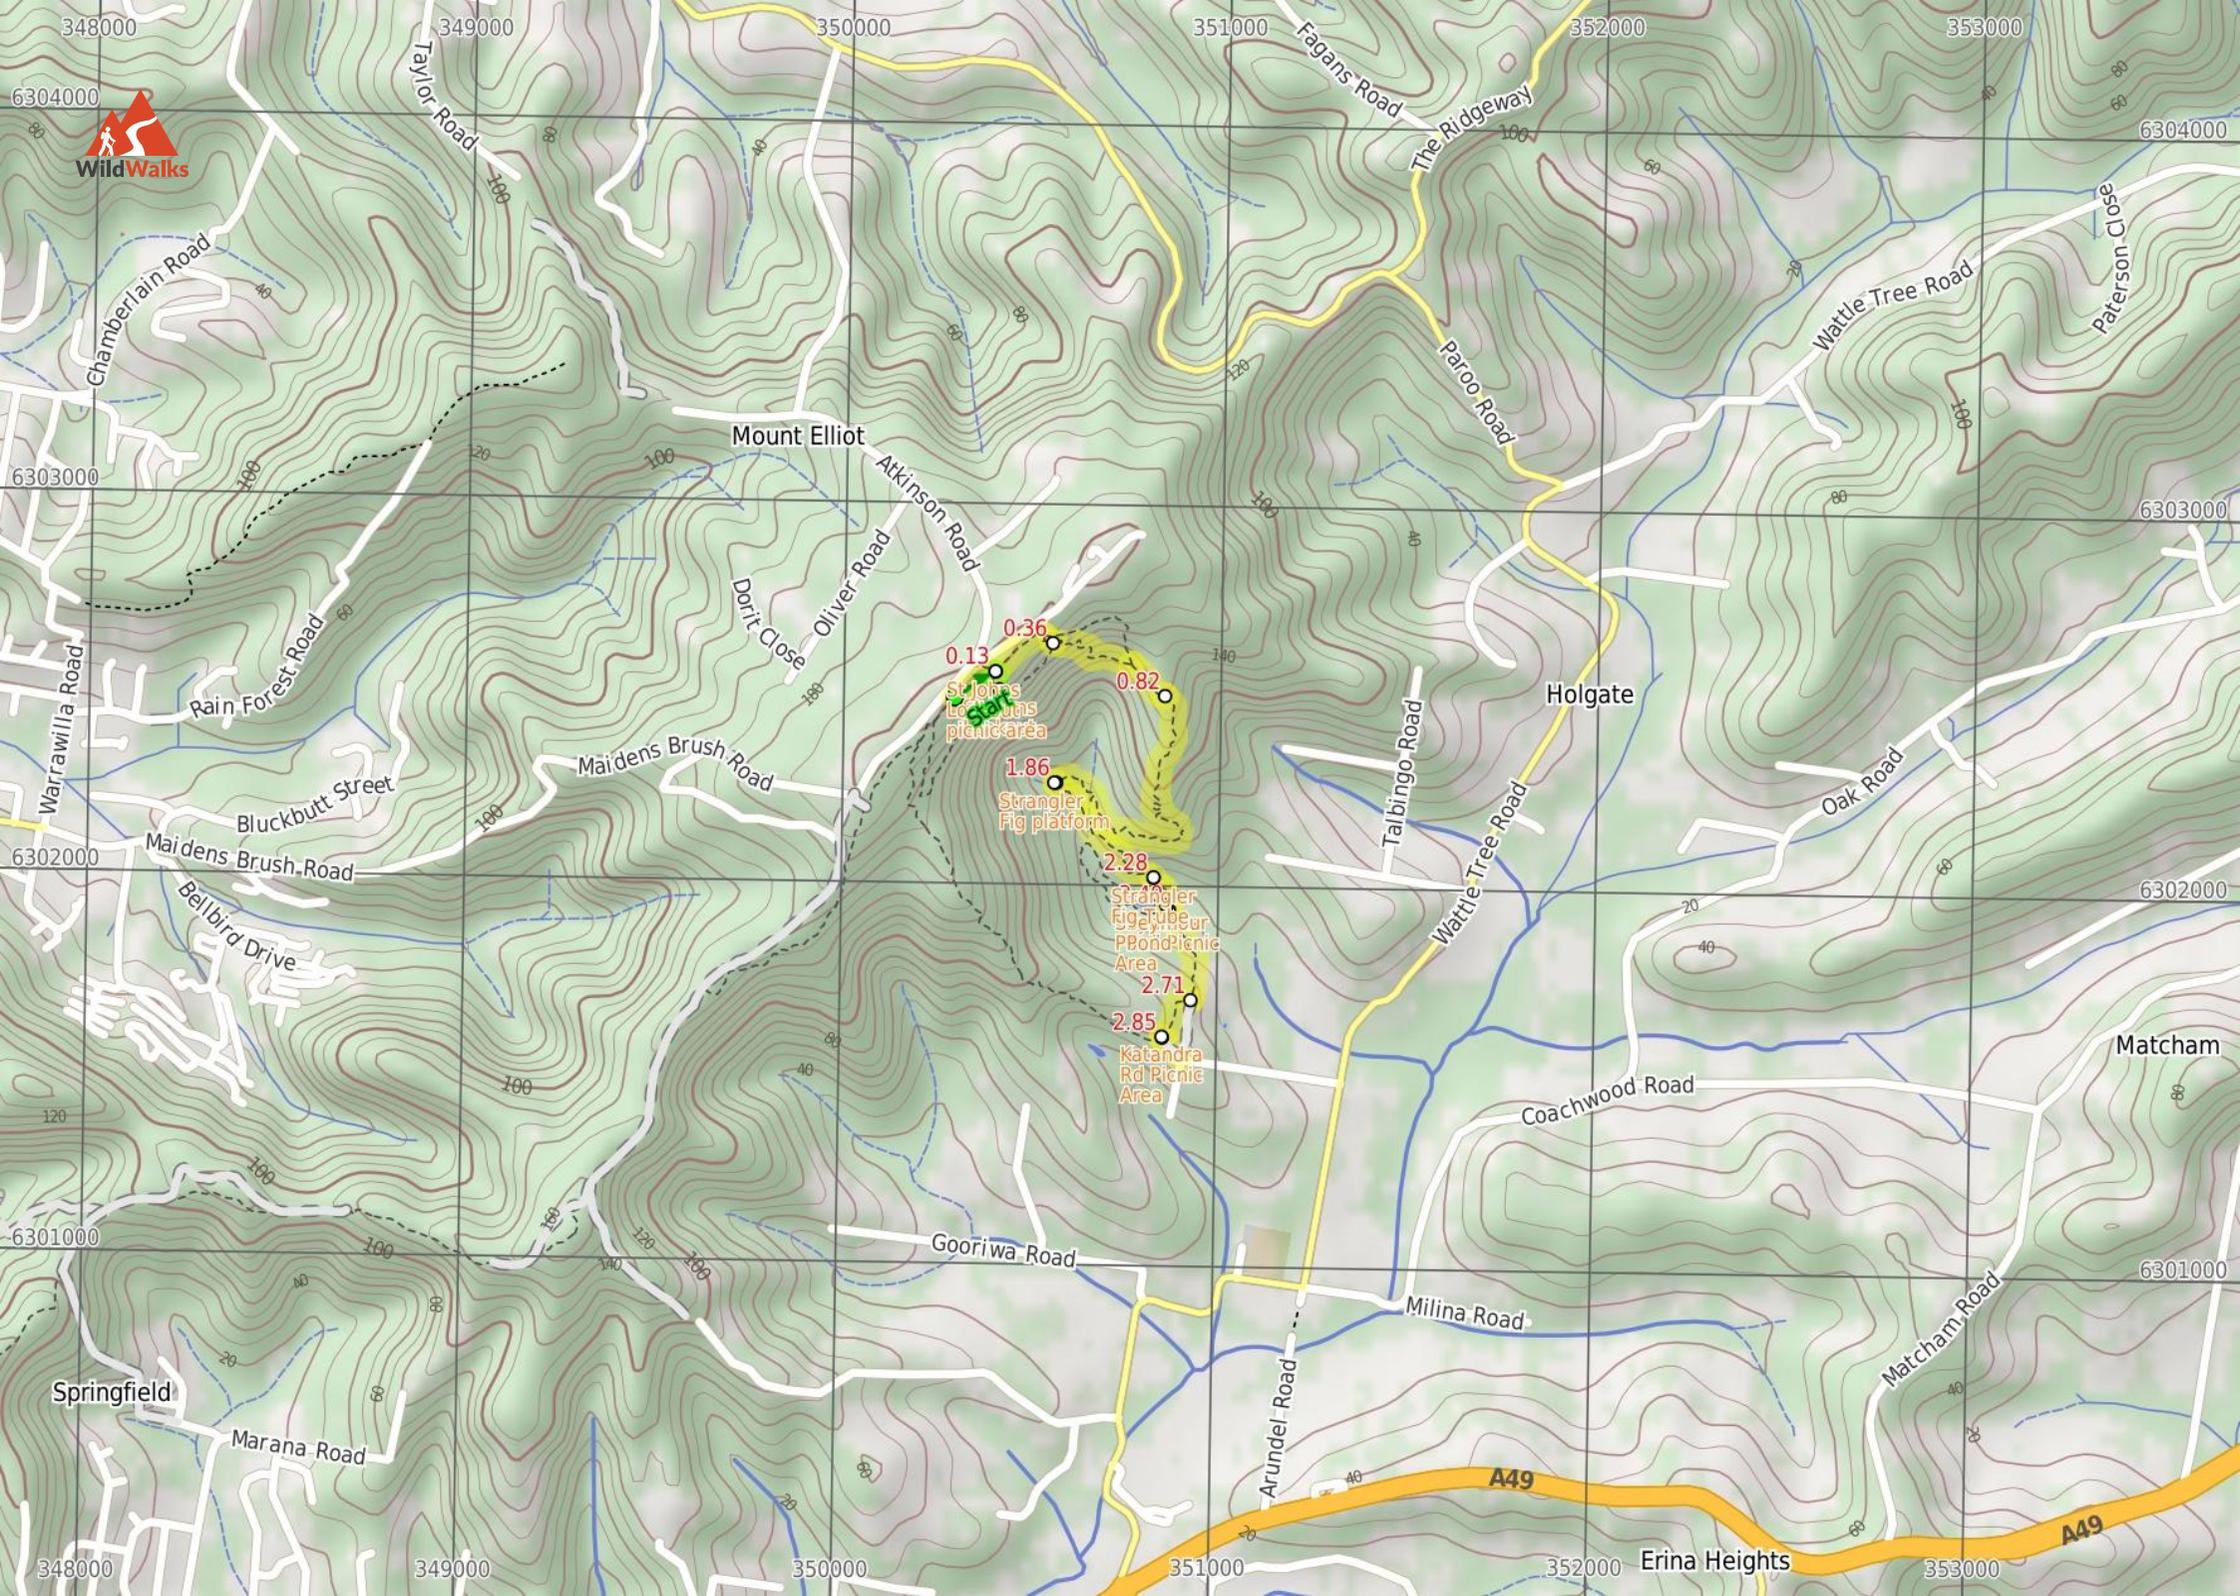

(140 m 3 mins) Turn right: From the intersection, this walk follows the lower arrow up the steps and turns left in front of the locked gate. The walk follows these steps up the hill, then soon flattens out as the track comes to a picnic area and car park.

2.85 | Katandra Rd Picnic Area

The Katandra Road Picnic Area is found at the end of a short driveway (signposted at the intersection of Katandra Rd and Croton Ave, Holgate). The picnic area is in front of the ranger's residence and is open from 7am to 6pm daily. The picnic area provides some toilets, garbage bins, two picnic tables, parking and an information sign.

2.85 | Katandra Rd picnic area

(70 m 2 mins) Turn left: From the picnic area, this walk heads through the car park and follows the driveway down the hill, soon coming to a gate just above the junction of Katandra Rd and Croton Ave.
